

MEMBER SURVEY ON THE IMPACTS OF COVID-19

DATE: APRIL 14, 2020

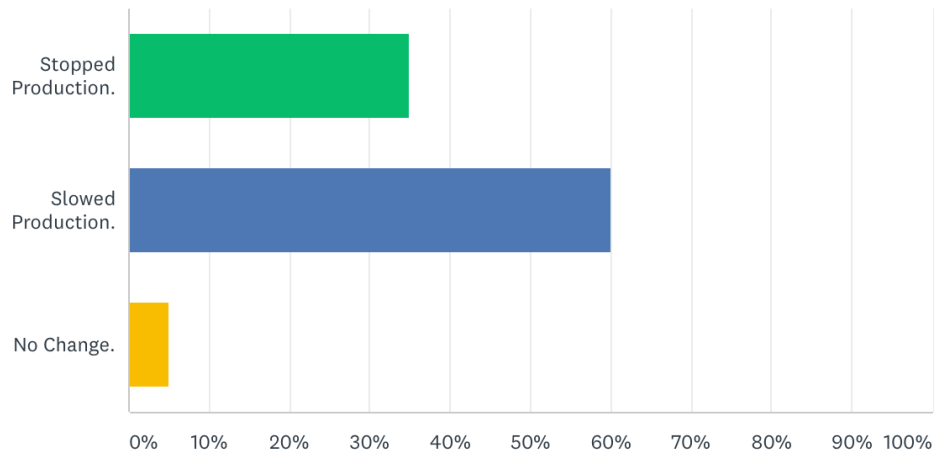

Included are various responses in a survey sent to South Carolina's breweries and brewpubs during the week of April 6th. Many parts of the survey were confidential internal data.

Q1

By what percentage has your sales changed?

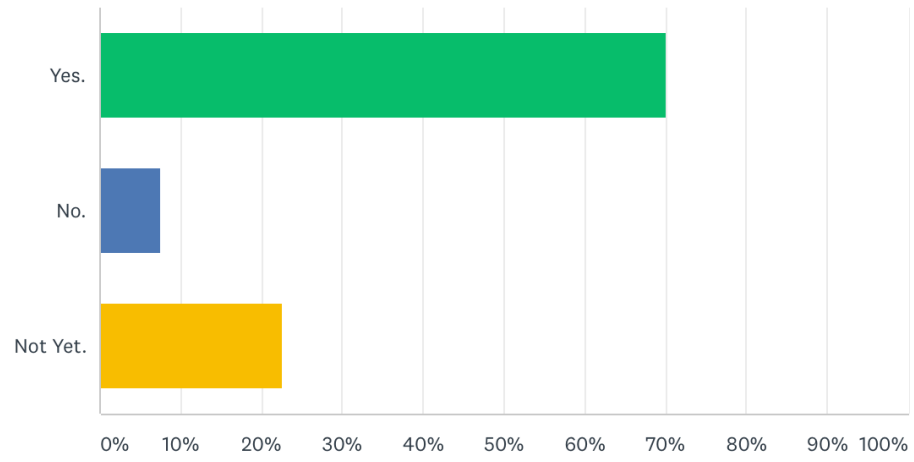

Have you changed your production schedule in response to COVID-19?

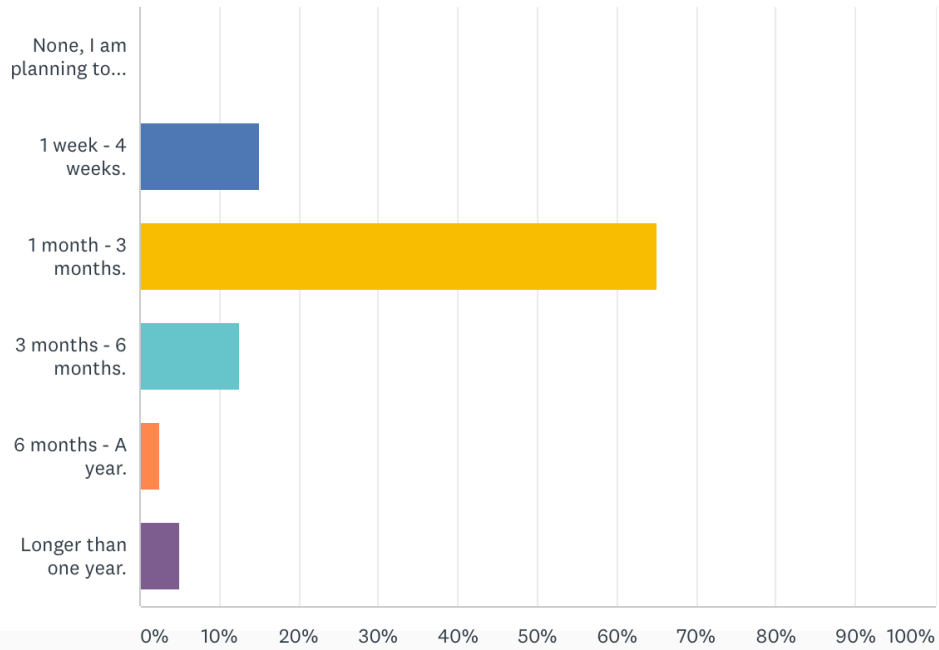

Q5

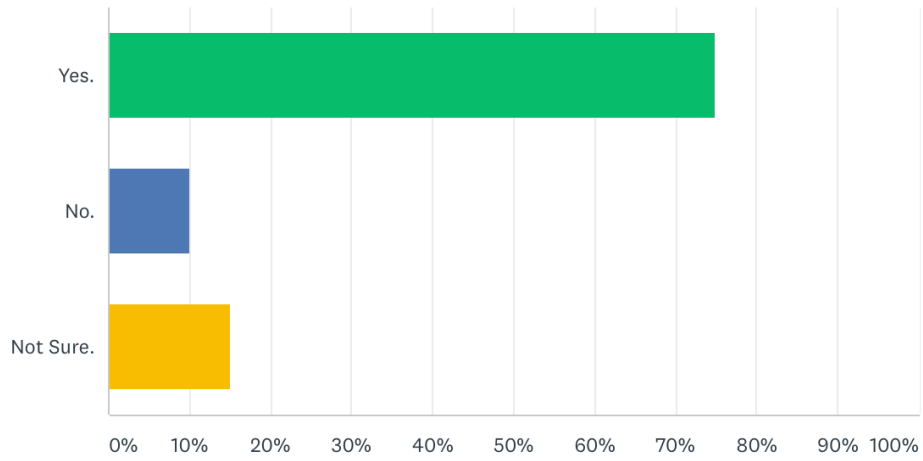

Have you laid off or furloughed employees?

Given current costs, revenues, and the current level of state and federal aid, how long do you project you can sustain your current business if social distance measures stay where they are now?

If SCDOR lifted the ban on alcohol delivery or shipping, would you provide the service?

Q10

If either prohibition were lifted, would it allow you to hire back employees?
